

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Stephen Meade
DOCKET NO.: 03-27761.001-R-1
PARCEL NO.: 17-06-117-036-0000

The parties of record before the Property Tax Appeal Board are Stephen Meade, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a five-year-old, two-story style single-family dwelling of masonry construction containing 2,316 square feet of living area and located in West Chicago Township, Cook County. Amenities include two full baths, one half-bath, a full basement, air conditioning, and a two-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject, two of which are on the same street and block as the subject. These properties consist of two or three story style single-family dwellings of masonry construction from one to four years old. The comparable dwellings contain two or three full baths, half-baths, and air conditioning. The comparables range in size from 2,170 to 3,154 square feet of living area and have improvement assessments ranging from \$11.85 to \$16.52 per square foot of living area. A copy of the subject's 2003 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$54,716, or \$23.62 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject, one of which

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	5,725
IMPR.:	\$	54,716
TOTAL:	\$	60,441

Subject only to the State multiplier as applicable.

is on the same street and block as the subject. The comparables consist of nine or eleven year old, two-story style single-family dwellings of frame construction. The comparables contain one or two full baths, basements and have garages; three have half-baths and two have fireplaces. These properties range in size from 1,472 to 2,062 square feet of living area and have improvement assessments ranging from \$23.74 to \$27.59 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. The Board accords the three properties located on the same street and block as the subject the most weight. In addition these three properties bear other similarities to the subject such as amenities and/or construction type. These properties have improvement assessments ranging from \$21.13 to \$27.59 per square foot of living area. The subject's per square foot improvement assessment of \$23.62 falls within the range established by these properties. Further, the Board accords the remaining properties less weight as they differ significantly in size and/or construction type. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
